# Balcony Gardens Cool and Warm

Following on from last year's Penthouse Rooftop Garden these two balcony gardens contain the same stylish touches of black, white and silver, but by changing just one element we have created two distinct spaces with contrasting moods: Cool and Warm. **Cool** - introducing cool blue and lavender shades. **Warm** - introducing warm red and orange shades.

# Contemporary Garden

A combination of warm pastel shades, collectively planted, elegantly dress sleek design lines whilst softening hard landscaping materials. An enclosed planted seating area is an indulgent space to appreciate floral prettiness alongside chic design.

# Sensory Garden

This garden design sets out to create an environment which stimulates the senses. Stimulation occurs courtesy of plants and materials that engage senses of sight, smell, touch, taste and sound. The sensory garden offers a rich therapeutic experience providing a relaxed environment packed with tactile plants, stimulating bursts of colour, scent and flavour.
