PETUNIAS

Easy Spreading Colour

wave®

Petunia Wave® started back in 1995 with the classic and original spreading Purple Wave® that provided a ground-hugging carpet of flower. Since then, through extensive breeding, a whole family of Petunia and latterly Trailing Pansy have been developed for every style of gardening!

Purple Wave®

The original spreading Petunia creates a ground-hugging carpet of colour!

Choose Wave® when you need ground-hugging carpets of colour that spread up to 1.2mt (4 feet). Wave® is perfect for growing low and filling in fast over retaining walls and landscapes. It's care-free and low maintenance for cascading out of window boxes or balcony planters. Enjoy masses of flowers along its entire length!

Exposure: Sun
Mature Plant Height: 13-18cm (5-7")
Full Spread: 91-122cm (36-48")

Easy Wave®

Great versatility and the most colour, blooming freely all season long!

Easy Wave® Petunias are fast-growing and are the most versatile for your garden. Grow them in the ground or in any basket or patio container. They tolerate the heat and cooler night conditions well. These flower-filled plants grow a little more mounded than original Wave® Petunias. Enjoy dozens of decorator colours and mixtures to match your personal style!

Exposure: Sun
Mature Plant Height: 15-30cm (6-12")
Full Spread: 76-99cm (30-39")

Early Wave®

Early-flowering Easy Wave® colours with a tidy look!

The Early Wave® series is a special collection of early-flowering Easy Wave® Petunias. They offer a more domed plant structure and yet still fulfill the promise of easy, spreading colour! These will be some of the earliest flowering Petunias you can buy and bed out as soon as it's safe to plant after the frost-free date!

Exposure: Sun
Mature Plant Height: 15-30cm (6-12")
Full Spread: 65-80cm (25-32")

Shock Wave®

Enjoy petite sized flowers for small spaces and baskets!

The petite flowers of Shock Wave® are perfect for use in hanging baskets or tucking into mixed flower designs. Watch them spill over the sides of your containers without overpowering other plants. Great for small-space gardeners. Enjoy a unique array of decorator colours from this small-but-mighty Petunia!

Exposure: Sun
Mature Plant Height: 18-25cm (7-10")
Full Spread: 76-91cm (20-30")

Tidal Wave®

Mountains of colour for big spaces and containers!

Here's the "go-to" when you're looking for fast, vigorous garden colour. It's a Petunia hedge, vine or groundcover – Tidal Wave® does it all! These fast-filling plants spread out across big spaces, and they crawl along and over walls and fences. They're the largest and most vigorous in the Wave® Petunia family with terrific recovery from rain. Height and spread is determined by how closely plants are spaced – the closer the spacing, the taller the plants!

Exposure: Sun
Mature Plant Height: 41-56cm (16-22")
Full Spread: 76-152cm (30-60")

Trailing Pansy Cool Wave®

Your cool-season choice for trailing baskets and winter garden colour!

Cool Wave® Pansies are your spreading garden colour in cooler weather. These friendly-faced flowers outperform other Pansies and fill in your garden fast. They survive reliably through the frost and provide early-season colour alongside your bulbs in the spring. They make excellent hanging baskets or spill over balconies and patio containers, too.

Exposure: Sun
Mature Plant Height: 15-20cm (6-8")
Full Spread: 61-76cm (24-30")

Cool Wave® Trailing Pansies!

Trailing Pansy Cool Wave® is the industry's fastest growing, longest lasting, truly trailing Pansy for spring and autumn. Cool Wave® offers amazing vigour and colour for cool season gardens.
